

OGF Accomplishments

22-23 February 2010

Joel Replogle

OGF is...

- An open community using a proven, open process to create best practices and open standards for distributed computing, and...
- An open forum for the discussion of topics of interest to the community.

OGF has...

- Published 159 documents
 - 36 recommendations (10 full, 26 proposed), 88 informational, 13 community practice, 16 experimental/experience, 14 historical)
- Organized 27 events
 - 18 as “Global Grid Forum”, 9 as OGF (not counting the 5 organized as “Grid Forum”)
 - Note: OGF28 in Munich is less than a month away!

In the last two years...

- 1607 different people from 571 organizations representing 58 countries have attended OGF events.
- OGF published 44 documents, and gained the implementation experience to promote 8 documents to full recommendation status.

Collaboration...

- SCRM
- Cloud-Standards.org
- Distributed Management Task Force (DMTF)
- Storage Networking Industry Association (SNIA)
- Internet Engineering Task Force (IETF)
- Open Geospatial Consortium (OGC)
- Cloud Security Alliance (CSA)

Spec Adoption...

- DRMAA, GridFTP, SRM, HPCBP, OGSA-BES, JSDL, GLUE, NM, NSI, OCCI
- PGI/GIN
- CAOPS

Of babies and bathwater...

- Le plus ça change, le plus ça reste la même.
(The more things change, the more they stay the same)
- Much of what OGF has learned and produced is very relevant to clouds.

Thank you
